

COURTHOUSE DOCUMENTARIES

Visualize. Empathize. Persuade.

What is video mitigation?

Sentencing mitigation videos are short-form narratives consisting of filmed interviews, and photos depicting the life and circumstances of a client that enable them to tell their story. Understanding the reasons why they ended up in the criminal legal system and effectively communicating their history can lead to rehabilitation rather than retributive punishment.

Impact

Since September 2019, Courthouse Documentaries has partnered with the Legal Aid Society to submit 23 mitigation videos. Of the cases decided, our work yielded reduced sentences, alternatives to incarceration, and elimination of bail conditions. During COVID-19, these outcomes were literally life-saving.

How can Courthouse Documentaries help you?

We collaborate in various legal and quasi-legal settings to develop innovative strategies that help legal teams achieve desirable results in their cases.
